DOMUS
SOFTWARE AG

AGILE TESTER - CLOUD APPLICATIONS (M/W/D) FULL TIME - MUNICH OR REMOTE

Real estate management may sound a bit boring – definitely not at our company! With us you have the opportunity to work on the development of a cloud platform in an international team and with the latest technologies. As agile tester, you are responsible for the quality of our product in an agile SCRUM team. We communicate and collaborate through daily meetings as well as regular team weeks.

YOUR CHALLENGE

- Exploratory testing of different areas (web, API, mobile)
- Development of test automation for various platforms (web, API)
- Maintenance and further development of our test environment
- Analysis and logging of the errors found
- Continuous improvement of the test processes
- Improvement of the automated software delivery lifecycle

YOUR SKILLS

- At least 2 years of professional experience in a comparable position
- Knowledge of a programming language
- Continuous integration and continuous delivery are well known to you
- Interest in cloud platforms such as Microsoft Azure
- Enjoyment of new, rapidly changing technologies
- German language is an advantage

OUR BENEFITS

Flexible Working Hours

HomeOffice & RemoteWork

Team Events

Meetups & Conferences
